

DIGITAL VISION

Working to Protect Your Investment!

High Performance Digital Video Recording System with Remote Viewing

COMPLETE CAMERA SYSTEMS!

- Was it a Real Sale or a No Sale?
- Is your Dining Room clean?
- Where are your employees?

With Digital Vision you never have to wonder what happened or when it happened!

Increase your accountability and profitability by knowing what is happening in your business while protecting your assets.

TRUST IS GOOD...

- What's your backdoor policy?
- Remote Access

Manage your back door by knowing when, who and what is coming or going.

Digital Vision's remote software allows you the ability to watch one or all of your cameras remotely as well as play back recordings from previous days or weeks. You can also view multiple cameras from multiple locations simultaneously.

- Interface Your ECR/POS with a Text Inserter
- Video Motion Sensor

Capture what is rung up and superimposes the text right across the video! You can also define any portion of each camera to be monitored for motion, resulting in the system recording only when it is necessary. Sensitivity and speed of motion can also be set.

...CONTROL IS BETTER!

DIGITAL VISION PROTECTING YOUR INVESTMENT

Integrate Your Point of Sale System

“ Who's Watching Your Business ”
