

Fine Dining & Table Service

RPOWER™ RESTAURANT POS

Fine Dining & Table Service

RPOWER Restaurant POS has developed features catered specifically towards the Table Service environment. Intuitive operations for splitting checks, menu coursing, and fire/held ordering reduce time at the POS terminal, keeping the service staff at attention on the customer. RPOWER also includes built-in features to increase staff awareness and simplify in-house communication with employee messaging, count down/86 notification, and menu item/specials-description capabilities. Smart ordering software with forced and unforced modifier selections complete the order process while minimizing touches. Integrated high-speed credit card processing with definable capabilities for off-line processing and security overrides for multiple single-card transactions, tip percentages, and validation printing provide flexible controls for payment processing and advanced credit card security. RPOWER's Table Service software provides the unmatched stability and dependability our customers demand while providing the software tools to simplify order entry operations keeping the management team in control.

Customer Rewards Programs

RPOWER gift and customer rewards programs extend far beyond the basics. From the availability of Internet multi-store gift cards to scalable Frequent Diner and Loyalty Rewards programs, RPOWER lets you cater to your customers. Not only are these programs affordable, there are absolutely no transaction or recurring monthly fees. You can also utilize RPOWER to handle all of your House Account needs with monthly statements and billing.

Graphical Tables

The RPOWER Graphical Table layout provides a comprehensive look at the current state of tables in your establishment. Twelve different color codes denote table status from initial seating to a dirty status enabling your staff to table manage with increased efficiency. The RPOWER Graphical Table layout screen also includes quick action buttons for printing guest checks, paying/closing checks, firing held orders, and duplicate round ordering. Multiple room views and Hostess/Server views keep the entire staff in tune with your guests.
